University names | Clickable websites | Website brand icons

# University directory

**2,690 institutional listings across 52 countries and territories**

Country-by-country reference guide, with alphabetical listings within each country. Includes universities, colleges, specialist schools and other higher education institutions recorded by the source.

## Scope and limitations

Broad European coverage includes the United Kingdom, Cyprus, the South Caucasus and transcontinental Russia, Turkey and Kazakhstan; these countries are included in full. Faroe Islands are included. Monaco has been added separately. Countries or territories without source entries are identified in the coverage notes.

This is a broad directory, not an exhaustive list of all recognised universities. Source names can include legacy institutions, renamed institutions and colleges. Accreditation, current operating status and every website have not been independently verified.

Brand icons are retrieved using the listed website domain. They may be compact favicons rather than full logos. An unavailable icon is labelled; no institutional logo has been invented.

Source: Hipo University Domains and Names Data List, retrieved 9 October 2026. Website icons: Google favicon service. Source links and coverage notes appear at the end.

# Sources and coverage

How to use this directory

## Directory data

Hipo University Domains and Names Data List. The full European-country subset of the downloaded dataset is included, with exact duplicate names within a country removed. One official website field is displayed per entry. Names and links follow the dataset and may reflect historical records.

[github.com/Hipo/university-domains-list](https://github.com/Hipo/university-domains-list)  
Downloadable source dataset

Monaco supplement: International University of Monaco, [monaco.edu](https://monaco.edu).

## Website brand icons

1,854 icons retrieved for 2,690 entries. Icons are domain-based images from the Google favicon service, not an independent verification of university identity. Some sites return a generic icon. Trademarks belong to their respective owners.

## Coverage notes

The directory spans 52 countries and territories using a broad European scope. Greenland and overseas dependencies are excluded. Vatican City is listed under the source name Holy See. Monaco was supplemented because the main dataset had no entry. The UK dataset differs from the supplied UK PDF because this source also includes colleges and specialist institutions.

Before using an entry for admissions advice, confirm the current institution name, recognition, programmes and application website with the institution or its national education authority. Clickable links have been embedded, but website availability was not individually checked.
